

# Breathtaking beaded jewelry by Guzel Bakeeva

One of my favorite bead designers is amazing Guzel Bakeeva. She makes breathtaking beaded jewelry in different techniques such as bead embroidery, bead weaving, stitching and many other. She uses in her works rare natural stones, swarovski crystals and seed beads. Her talent is really unique and if you don't know her yet you will be surprised and stunned when you see her wonderful work. I already made several posts about her, you can find them via the link – [beadsmagic.com/tag/bakeeva/](https://beadsmagic.com/tag/bakeeva/). But here comes her new beadart jewelry.
