Free beading pattern for bracelet Interstellar

The amazing movie Interstellar and its beautiful soundtrack inspired me to make this beaded bracelet. Silver stars, dark blue space, mysterious planets – everything is in this bracelet. You can make it with this step-by-step free beading pattern using only two items – bicone crystal beads and japanese seed beads. Its easy to change the color combination because this bracelet will look amazing in any colors. When you make this bracelet listen to the soundtrack to the Interstellar for inspiration and relaxation.
