Free pattern for necklace Crystal Ice (variant by Elaine C Vechorik)

One of our talented followers Elaine C Vechorik made amazing necklace using our pattern Crystal Ice. She made some changings and it turned out a new and beautiful variant of this necklace. We think its a brilliant idea to use silver leaves.

This is what she is writing about her work.

I altered the Beads Magic pattern, “Crystal Ice” to “Fringed”. I used 10mm pearls in front and fringed to add 3 leaves. For the sides and back, I used 8mm pearls and only 1 leaf. These are 9mm bugles and the leaves are from Michael’s (2016). When the necklace was finished, I went through the neckline with double thread, adding 1 silver on top of each bugle.
